**ExSeed Health**  
Denmark  
CEO: Morten G. U.

We want to empower people to make informed decisions about their health and lifestyle by unlocking the full potential of personal technology.  

Our latest innovative product will help give couples all over the world the ability to improve their chances of becoming pregnant.

https://www.exseedhealth.com/
Fitlink

When tracking activities with apps like Strava, RunKeeper, Nike and Runtastic it’s not easy to view each other’s progress. In fact, it’s impossible. Whilst training it’s important to view, compare, benchmark and learn from fellow athletes, friends and clubs, but, with the disconnected world of activity tracker apps, that’s impossible to do. So we built FitLink to solve this problem and now it’s turned into a global platform connecting and rewarding people and businesses from around the world.

https://fitlinkapp.com/about-us/

Forward Health

We are Forward, a team of clinicians and technologists who believe that secure, intelligent communication is fundamental to healthcare. We are connecting healthcare for everyone; first through our communications platform for professionals, then for patients.

https://forwardhealth.com/
