

LONGEVITY LEADERS VIRTUAL

AGEING SCIENCE | AGEING WELL | LONGEVITY RISK

2nd Annual Congress
19-22 May 2020

In response to COVID-19 the Longevity Leaders World Congress will take place as a virtual experience

www.longevityleaders.com #longevityleaders @longevityleader

Created by

The network
for life science
executive leaders

NEW to Longevity Leaders World Congress Virtual

- Applying actuarial science to COVID-19 modelling
- Capturing community spirit from the COVID-19 crisis to better serve ageing populations
- Addressing pensions investment in the wake of economic downturn
- Pre-arrange calls with anybody on the attendee list
- Live Investor Q&A session
- Live debates exploring how to tackle ageism, the new future of work and challenges surrounding the built environment
- Two exclusive Speaker Meet-Ups, for Executive Ticket holders only

Why the Longevity Leaders virtual experience?

In response to global social distancing in the wake of the COVID-19 pandemic, the Longevity Leaders World Congress is going virtual.

The situation that the world finds itself in right now offers a wealth of unforeseen challenges, and even some positives, for the longevity sector. It's more important than ever that we address the urgent impact of how we age and how we cater for an ageing society.

>> What does a virtual event mean in practice?

Across four days you'll be able to debate, take meetings and network with over 300 global leaders in longevity from the comfort of your home office.

You'll also have access to a mix of live and on-demand content across those four days and available for 30 days afterwards.

Don't think of it as a physical event but online, think of it as a **brand-new virtual experience**.

>> Is the content changing?

All of the original content planned for the Longevity Leaders World Congress will be available, in addition to critical new topic areas to suit a dramatically changed world.

These include the application of actuarial science to modelling COVID-19 and its impact on ageing populations, capturing community spirit from the crisis to better serve ageing individuals in the future, the rapid acceleration of changing workplace practices and what this means for the ageing workplace and pensions investment in the wake of economic downturn.

>> But will the networking be as good?

Absolutely. We're introducing new formats to suit the digital event including live debates (think Twitter storms but without the trolls), attendee chat rooms, interactive online round tables, Investor Q&A and exclusive speaker meet-ups.

You'll also have access to the delegate list and be able to pre-arrange video meetings or calls with any attendees for the duration of the digital event.

>> I'm nervous...

It's new for us too. But social distancing practices around the world have shown just how productive digital work methods can be, and we're excited to embrace this new type of event to suit a digital workplace.

We're working with one of the best platform providers in the business to deliver the Longevity Leaders World Congress Virtual and are confident of providing our attendees with the same fantastic benefits expected from a physical event plus some extras.

We hope you will join us.

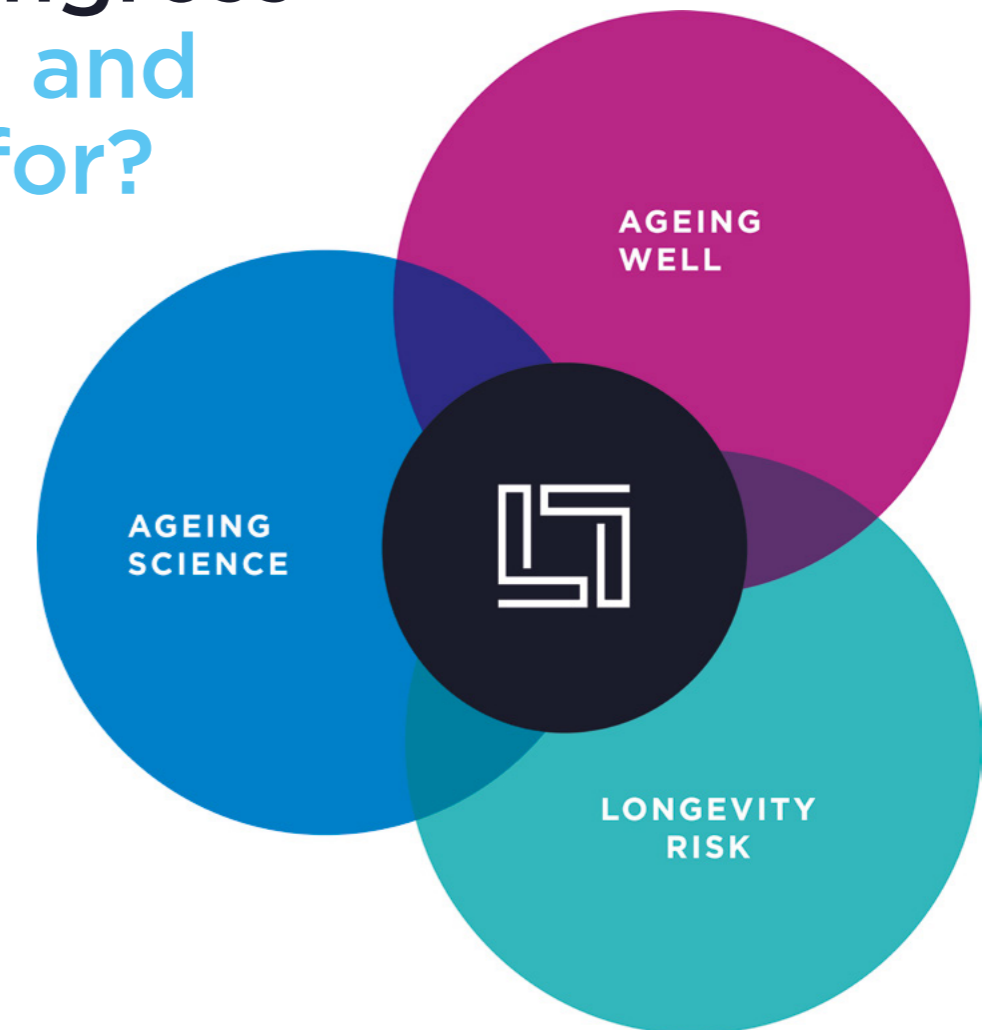

The conference for leaders in longevity science, technology, business and finance

‘This is time well spent... in terms of getting yourself properly immersed into what is possibly the most important debate in policy for the next 5-10 years’

Wilf Blackburn, Chief Executive Officer,
Prudential Assurance Company Singapore

Longevity Leaders World Congress

What is it and who is it for?

Around the world our populations are ageing. By 2050 there will be more people aged 60 or over than aged 10-24 globally. Their global spending power is estimated to be worth up to \$17tn USD. Those 60+ year olds are likely to be the primary carers for their 90+ parents. Our understanding of biological ageing processes is improving and set to dramatically change how we manage the diseases of ageing. Life expectancy improvements are driving a thriving market in bulk annuities and longevity swaps. Wherever you play, ageing is having an impact.

The Longevity Leaders World Congress is the definitive global meeting with the mission of extending human health span, delivering healthy ageing and financial wellness in the context of longevity.

As three-conferences-in-one, it digs deeply into each facet while shared plenary and networking sessions provide opportunities for interdisciplinary exchange.

Longevity Leaders World Congress

Is it for me?

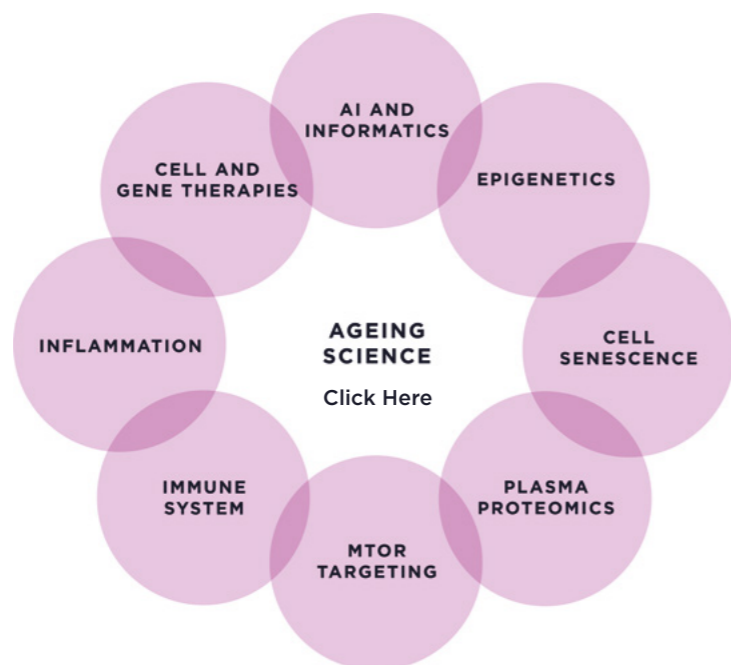

Jump to the pages using the arrows

- Speakers
- Networking Activities
- Who attends?
- Delegate Packages
- Who are Longevity Leaders?

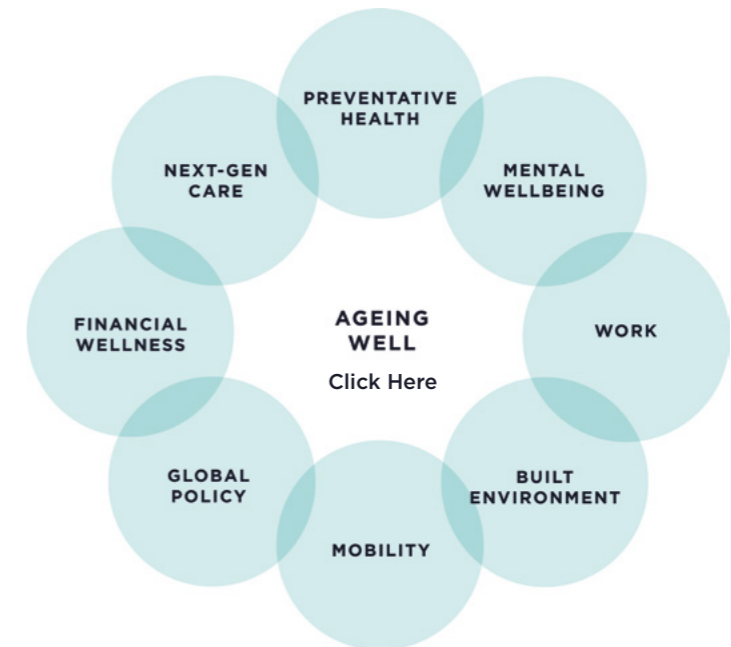

Ageing Science

Ageing Science brings together biotech executives, academia, investors, regulators, advocates and Big Pharma to explore how to better understand ageing at a biological level, and the responsible clinical development of novel therapies to improve human health span.

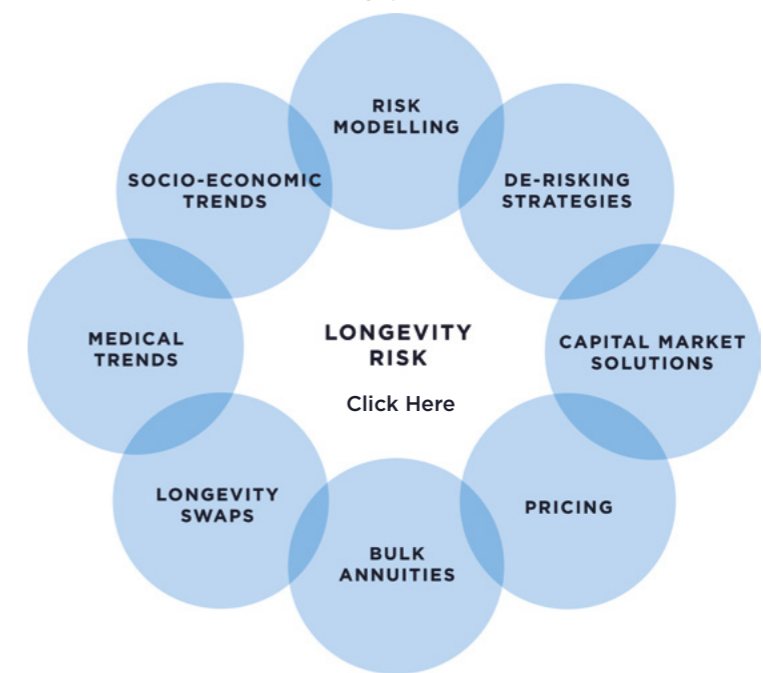

Ageing Well

Ageing Well brings together start-ups, investors and corporates developing the products and services to facilitate ageing well. It explores where the market opportunities lie, strategies for gaining user critical mass and disruptive new business models within ageing.

Longevity Risk

Longevity Risk brings together pension trustees, corporate sponsors, insurers, reinsurers and professional services to explore the impact of emerging medical, socio-economic and behavioural trends on life expectancy as well as a frank discussion about current and future de-risking practices.

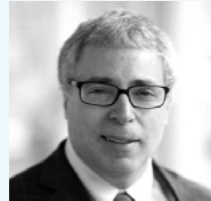

Who will I meet?

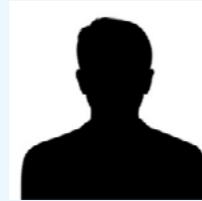

Key Speakers

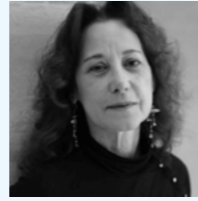

Gregory Bailey
CEO, Juvenescence

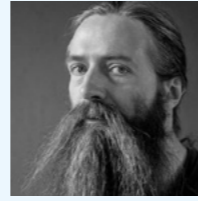

Nir Barzilai
Director, Institute for Aging Research, Albert Einstein College of Medicine

Andy Briggs
CEO, Phoenix Group

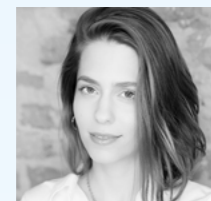

Judith Campisi
Professor, Buck Institute

Aubrey de Grey
CSO, SENS Research Foundation, VP of New Technology Discovery, AgeX Therapeutics

Anna Dixon
CEO, Centre for Ageing Better

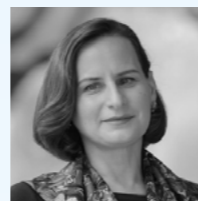

Keren Etkin
Founder, The gerotechnologist.com; Co-Founder and Vice President Product, Clanz

John Godfrey
Corporate Affairs Director, Legal & General

Alice Hu Wagner
MD, Strategy Economics & Business Development, British Business Bank

Amy Kessler
Senior Vice President and Head of Longevity Risk Transfer, Prudential Retirement

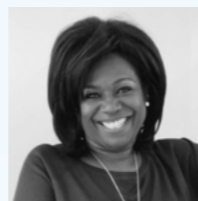

Reza Khorshidi
Principle Investigator - Deep Learning, University of Oxford

Paul Kitson
Partner, PwC

Helen Lamprell
General Counsel & External Affairs Director, Vodafone

Jackie Marshall-Cyrus
Ageing Innovation Strategist, Jackie Marshall-Cyrus & Associates Ltd

S. Jay Olshansky
Co-Founder & Chief Scientist, Lapetus Solutions, Professor, University of Illinois

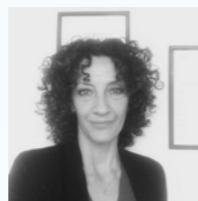

Cliff Prior
CEO, Big Society Capital

Andrew Scott
Professor, London Business School

Yvonne Sonsino
Partner MCG, Global Co-Leader Next Stage, Mercer

Raina Summerson
CEO, Agincare

Debra Whitman
Chief Public Policy Officer, AARP

LONGEVITY LEADERS VIRTUAL

“I’m excited about this area of science and technology because ageing research has advanced so rapidly in recent years it now promised to transform our experience and concept of ‘old age.’ I’m excited to be speaking at the congress because it will showcase how the science of ageing is being translated into practical biomedical benefits.”

Judith Campisi, The Buck Institute

Agenda

The Virtual Experience will take place across 4 days on 19-22 May 2020. All the on-demand content will be available for 30 days post-event and all times are British Standard Time (BST).

Day 1 - Tuesday 19 May

8:30 **Grab a coffee and familiarize yourself with the new virtual experience**

- Plan your day
- Book your meetings
- Explore the exhibition hall

9:00 **Wake up yoga**
Loosen up at your desk. No need for equipment or special clothing.

9:15 **Keynote panel: Facilitating “ageing well” to access the longevity dividend**

- Andrew Scott, Professor of Economics, **London Business School**
- John Godfrey, Corporate Affairs Director, **Legal & General**
- Debra Whitman, Executive Vice President and Chief Policy Officer, **AARP**

Moderator:
Anna Dixon, Chief Executive Officer, **Centre for Ageing Better Ageing Well**

10:00 **Live debate: Creating places with longevity in mind: is global best practice really right for the UK?**

Host:
Terry O’Dwyer, CEO, **Longevity Leaders**

John Godfrey, Corporate Affairs Director, **Legal & General**
Paula Broadbent, Retirement Solutions Director, **Engie Ageing Well**

11:00 **Panel: Exploring the impact of COVID-19 on pension scheme longevity assumptions *NEW***

- Sacha Dhamani, Chair of IFoA Mortality Research Steering Committee, **IFoA**
- Mark Cooper, Head of Longevity Risk, **Rothesay Life**
- Stuart McDonald, Head of Demographic Assumptions and Methodology, **Lloyd’s Banking Group**
- Amy Kessler, Senior Vice President and Head of Longevity Risk Transfer, **Prudential Retirement**

Moderator:
Tim Gordon, Partner, **Aon Longevity Risk**

11:45 **Panel: Investing in infrastructure for ageing communities to enable independent living**

- Raina Summerson, Chief Executive Officer, **Agincare**
- Andrew Ovey, Head of Healthcare, **AXA Investment Managers**
- Baroness Sally Greengross OBE, Chief Executive, **International Longevity Centre**
- Paula Broadbent, Retirement Solutions Director, **Engie**

Moderator:
Michael Voges, Executive Director, **Associated Retirement Community Operators (ARCO) Ageing Well**

Day 1 - Tuesday 19 May

12:30 **Panel: Structural considerations of assorted risk management strategies**

- Guy Coughlan, Chief Risk Officer, **USS**
- John Chilman, Chief Executive Officer, **RPMI**
- Paul Rogers, Director, Pensions Risk, **BT**
- Jay Shah, Chief Origination Officer, **Pension Insurance Corporation**

Moderator:
Paul Kitson, Partner, **PwC Longevity Risk**

13:15 **Panel: At-home care and opportunities for IoT-enabled preventative measures**

- Jane Townson, Chief Executive Officer, **United Kingdom Homecare Association**
- Katie Smith Sloan, President and Chief Executive Officer, **LeadingAge**
- Paul Oliver, Chief Executive Officer, **Vida**

Moderator:
Eric Kihlstrom, Chairman, **Older Ageing Well**

14:00 **Live debate: Tackling ageism**

Host:
Angela Tyrrell, Senior Vice President, **Longevity Leaders**

Jean Accius, Senior Vice President, **AARP**
Peter Rundlet, Vice President, *International*, **AARP**
Kamili Wilson, Vice President, *Enterprise Initiatives*, **AARP**

Ageing Well

APPG Online Focus Group: Development of the brief for a Business Index/New Social Contract

NEW Invitation Only

15:00 **Exhibition tour and live networking**

15:00 **KEYNOTE: To be or not to be?**

- Dr Nir Barzilai, Director, Institute for Aging Research, **Albert Einstein College of Medicine**

Ageing Science

Disrupting care: what needs to change in a sector at breaking point?

- Paul Gaudin, Chief Executive Officer, **Care Rooms**

Ageing Well

15:30 **Engaging private and public sector to facilitate better services for Japan’s ageing population**

- Nishikawa Kazumi, Director, Healthcare Industries Division, **Ministry of Economy, Trade and Industry, Japan**

Ageing Well

Modelling risk in the context of age-related sciences

- S. Jay Olshansky, Co-Founder and Chief Science Officer, **Lapetus Solutions, Inc**

Life Lab Showcases

Innovation is at the core of the longevity market, and we're delighted to showcase some of the most exciting emerging biotech and Age Tech platforms in development.

- Discover novel platforms in Age Tech and longevity biotech
- Compare emerging business models and market potential
- Designed to help you source new investment opportunities

All of the Life Lab presentations will be available digitally and on-demand. That means they'll be accessible for the duration of the Longevity Leaders Virtual Experience and for 30 days afterwards to digest at your leisure.

Life Lab Programme

Supported by:

Life Lab Selection Committee

1:1 Partnering

Using our new partnering technology you can search the delegate list for parties of interest, message them directly and set up online meetings or calls during the four days of the Longevity Leaders Virtual Experience. The meeting planner goes live four weeks before the Virtual Experience to give you time to plan your meetings accordingly, and around your other work commitments.

Delegate packages

About Longevity Leaders

Longevity Leaders are a global network of influencers from the worlds of ageing science, consumer products, finance, technology, policy and investment. Our events sit at the centre of a global ecosystem, connecting people, knowledge and investment in emerging longevity sectors. Our mission is to advance innovations that will extend human health span and enable financial, physical and mental wellness in later life.

Longevity Leaders is a subsidiary of LSX, an influential community of senior life science decision makers. We connect senior life science executives with access to the capital, intelligence, innovation, and partners they need to grow their businesses. We achieve this through a programme of high-level conferences and networking events, via content that showcases and shares the expertise of investors, senior leaders and industry stakeholders, as well as through bespoke initiatives.
